

HIGHLAND LAKE FIVE-YEAR WATER LEVEL POLICY

YEAR	TARGET DEPTH	GATE OPEN/ BEGIN DRAW	PUBLIC WORKS ACTION
2017/2018	3 feet down	November 1	Maintain 3 foot level, as much as possible, until ice is sufficiently off the lake. Then allow refill to usual over-spillway level (approx. 11.9)
2018/2019	3 feet down	November 1	Maintain 3 foot level, as much as possible, until ice is sufficiently off the lake. Then allow refill to usual over-spillway level (approx. 11.9)
2019/2020	3 feet down	November 1	Maintain 3 foot level, as much as possible, until ice is sufficiently off the lake. Then allow refill to usual over-spillway level (approx. 11.9)
2020/2021	Maximum of 8 feet down	October 1	Regulate gate to prevent level going below 8 feet down. If gate is not already closed, must close gate on December 30. Allow rise to the level of 3 feet down and maintain at 3 foot level, as much as possible, until ice is sufficiently off the lake. Then allow refill to usual over-spillway level (approx. 11.9)
2021/2022	3 feet down	November 1	Maintain 3 foot level, as much as possible, until ice is sufficiently off the lake. Then allow refill to usual over-spillway level (approx. 11.9)
